"I was just glad to go and compete with the class. The overall experience of the day was well worth it, and winning first place was just a bonus." ~ Joey Stalker

The Kane Cup

On Thursday, April 11th, Mr. Croom's AP Physics class placed first out of 24 local teams in the Annual Kane Competition. Senior Joey Stalker stated, "I was just glad to go and compete with the class. The overall experience of the day was well worth it, and winning first place was just a bonus." Out of the 162 students who participated, senior Spencer Williams placed in the top three. This is a major accomplishment; students who place in the top three compete in a Jeopardy Round for a \$2,000 scholarship. "Spencer is a Physics God," states fellow senior Dylan Fantini. Spencer came out of the game with 2,600 points and a 700 point lead over his competitors. Unfortunately, he was unable to get the Final Jeopardy question correct and lost 1st place. Senior Tristan Flood says, "It was great to take what we learn in class and get rewarded for it. It was also pretty awesome to see Mr. Croom dressed as an angry bird."

Congratulations to the members of the AP Physics class who participated: Alison DePew, John Docalovich, Emily Donahue, Dylan Fantini, Tristan Flood, Kimberly Gaik, Alexander Gardner, Kyle Haddock, Kayla Limani, Kyle Major, Marissa Maurer, Aaron McNeal, Thomas Meehan, Carly Mischello, Shelby Mychayliw, Nicholas Russoniello, Joseph Stalker, Spencer Williams, and David Yatsonsky.
