North Pocono

Shelby Mychayliw balances success inside and outside of the classroom.

The daughter of Mark and Melissa Mychayliw, Shelby is a high honors student and takes both accelerated and AP classes. She is also a member of student council, Friends of Rachel, the National Honor Society and Science Olympiad.

Shelby said her most memorable moment at North Pocono was winning first place for her gravity vehicle at the regional competition for Science Olympiad.

When away from school, she works at Freedom Images Screen Printing and Custom Embroidery and volunteers at St. Francis of Assisi Kitchen and the Highway Cleanup.

Shelby plans on attending college to major in engineering.
